1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE CLAIMS

This application is in condition for allowance except for the presence of claims 55-67 directed to an invention non-elected without traverse. Accordingly, claims 55-67 have been cancelled.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a mold assembly for manufacturing concrete blocks as recited in the claims of the instant application. The closest prior art disclosed by Ruckstuhl (U.S. Pat. No. 4,869,660) is described in the previous Office Action. Ruckstuhl, in disclosing an apparatus for fabrication of concrete block elements, does not teach or suggest first and second gear elements with parallel angled channels as recited in the claims. Moreover, none of the

references indicate that such a gear element structure was known in the concrete block manufacturing art, or that it would be in anyway preferable to the guide track system disclosed by Ruckstuhl.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald Heckenberg whose telephone number is (571) 272-1131. The examiner can normally be reached on Monday through Friday from 9:30 A.M. to 6:00 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Yogendra Gupta, can be reached at (571) 272-1316. The official fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
